Subject: Lakeview Rock Products, Lakeview Quarry (M/035/020) and Beck Street Quarry (M/035/019), Salt Lake County, Utah

Dear Paul:

Thank you for discussing the Lakeview Quarry with me today. As I stated, we would like to have any input that your group may have on this mine plan, as a portion of the quarry does fall within the City of North Salt Lake zoning authority.

Due to a recent Supreme Court decision the Beck Street quarries (Lakeview & Staker) now fall under the Division of Oil, Gas and Mining jurisdiction. We are currently in the process of reviewing mining and reclamation plans for these two quarries. When the plans are completed, the reclamation plan prepared by Reclamation Projects, Inc, dated August 7, 1995, will no longer be valid. Once the plans are complete, we will collect and hold the bonds for the reclamation of these sites.

I informed Russell Larson of your interest in reviewing this plan and he indicated that he would have a copy delivered to your office.

The Division would appreciate any comments that your office may have pertaining to Lakeview's plan. We would like to incorporate any comments you may have with our latest review. Therefore, please communicate any concerns that you may have to our office by June 19, 2004.

Thank you for taking the time to assist us in our review of this plan. If you have any questions or comments, please contact me at (801) 538-5382

Sincerely,

Doug Jensen
Senior Reclamation Engineer
